

24. (new) A game device according to claim 23, wherein selective operation by said communicator is implemented via a game controller serving as an inputting device of the game device.

25. (new) A game device comprising the character communication device according to claim 8.

26. (new) A game device according to claim 25, wherein selective operation by said communicator is implemented via a game controller serving as an inputting device of the game device.--

#### REMARKS

Applicants delete pages 42-43 that constitute the two-page translated annex filed with this application. These pages are being deleted because they fail to correspond to the substituted page 35 on a page-for-page basis. Applicants amend claim 1 in accordance with 37 C.F.R. § 1.121 to incorporate the only claim amendment contained in the previously filed annex made to the international application in Japanese.

Applicants also amend claims 5 and 9 and add new claims 18-26 to correct improper multiple dependencies in the original claims. No new matter is added.

In accordance with the requirements of 37 C.F.R. § 1.121(c)(1), Applicants provide a marked-up version of the amended claims in an attached Appendix designated "Version With Markings to Show Changes Made."
